

# How to use Adobe Acrobat annotation tools effectively

To ensure that the correct edits is transferred from the pdf file to the indesign file please use the correct tools in acrobat.

Highlight the text or image you wish to comment on and then add your comment.

Use this tool if you want to replace one or more words with a different word. Please be precise when highlighting your text.

If you want a new sentence added please use this tool. Please be precise when placing the tool.

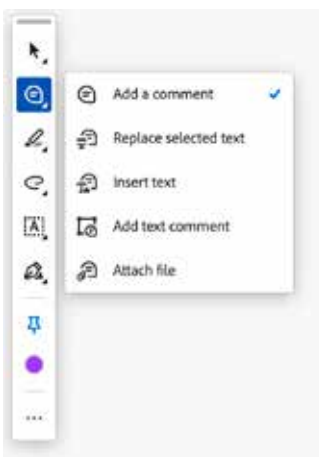

Use this tool if you wish to add a text box with a border.

Use this tool if you wish to attach a file.  
Or better yet: Upload your files to my dropbox using this [link](#)

When you are using the correct tools in Adobe Acrobat, Indesign automatically incorporates the text edits directly in the document leaving no room for mistakes. Please check if the highlighted words are correctly marked before starting to type your changes.

**Look for this tool  
in Adobe Acrobat**
